

Every job every day without harm to people or the environment

Health, Safety and Environment Policy

Alberta Envirofuels HSE target is zero incidents supported by HSE excellence. In order to achieve this AEF will implement, maintain and comply with all the elements of a comprehensive HSE program. AEF's management and employees will commit to:

Take a proactive approach to ensuring the health, wellness and safety of themselves and others

Do the job safely or not at all

Follow safe work practices and procedures

Operate within design and environmental limits

Stop unsafe work and challenge at-risk behaviors

Comply with all laws, rules and regulations

Conserve company and natural resources by reducing, reusing and recycling

AEF's Management will provide the necessary leadership, resources and education to develop and maintain an incident-free work environment.

Les Barber
